

Scrum 1

-21/10/2023-

1. Team members present:

- Phạm Hoàng Gia Huy
- Trương Công Gia Phát
- Đặng Vĩnh Tường
- Trần Thái Toàn

2. What have we done since last week?

- After a week, all team members found a variety choices for programming languages as well as frameworks and databases.

3. What will we do until next week?

- Identify pros and cons for these languages, frameworks and databases we have found so far in order to select the most suitable one for our project.
- Each team member starts working on their assigned task.

4. What issues / problems /obstacles do we have?

- Since we each have different schedules for school, selecting a convenient date and time for meetings is troubling.

Scrum 2

-29/10/2023-

1. Team members present:

- Phạm Hoàng Gia Huy
- Trương Công Gia Phát
- Đặng Vĩnh Tường
- Trần Thái Toàn

2. What have we done since last week?

- Completed Software Development Plan
- Completed first version of Vision Document
- Identified pros and cons of a variety programming languages and frameworks.

3. What will we do until next week?

- Discussing strong and weak points of these languages and frameworks to select the most suitable one for our project.
- Review Software Development Plan and Vision Document to fix any mistakes.

4. What issues / problems /obstacles do we have?

- This is the first time our team has taken a more professional approach to develop a software. Thus writing Software Development Plan and Vision Document prove to be a difficult task. But after deepening our understanding of the Software Development process, we were able to overcome the difficulties and completed our tasks.
